

UNICITY BALANCE

Your stabilizer for weight loss.

Unicity Balance is a nutritional supplement formulated to help your body balance glucose and insulin levels pre-, during, and post-meals for optimal weight loss results.

Day and night without end, our bodies perform thousands of synchronized chemical and metabolic balancing acts. When even one of these balances is left unchecked for too long, it undermines our body's ability to operate at its fullest capacity. That's where Unicity Balance comes in.

Unicity Balance restores the most important balance related to weight loss - the release of glucose and insulin. Balance provides a mild release of glucose and insulin into your system when taken before a meal. Once your body takes what it needs from this release, it begins to tap into fat reserves (a normal biochemical process) for energy. This safe and effective acceleration of the weight loss process promotes energy release and:

- Helps reduce appetite and prevent overeating
- Optimize cholesterol levels, reducing LDL by 31% and increasing HDL 29%
- Helps balance triglycerides
- Normalizes blood sugar levels to help reduce the risk of diabetes while helping your body burn fat
- Neutralizes cravings
- Improves digestive function

With two formulas that target the most prevalent weight-related health issues - cholesterol management and glucose management - choose the Unicity Balance product that best meets your needs.

1 BIOS LIFE FORMULA FOR CHOLESTEROL SUPPORT

Supplement Facts

Serving Size 1 Packet (7.25 g)

Servings Per Container 60

Amount Per Serving			% Daily Value*
Calories 15
